

WHAT LEARNING COMMUNITY STUDENTS ARE SAYING...

“Learning Communities get you involved with people, no matter what kind of person you are. Even the shy students benefit from a Learning Community...”

— Josh Mackey

“I like being a part of the Learning Community because I am able to build relationships with my classmates. Last semester was my first semester at college. I didn’t know anyone, where to go, or what to do. I think that the Learning Community made it easier to communicate and build relationships with other students.”

— Phillip Russell Sanders

TRANSFER STUDENT LEARNING COMMUNITIES

More from your education

Faculty committed to your success

Classes that connect meaningful content

Intellectually stimulating conversations

New skills to excel academically

Friendships that last a lifetime

WHY JOIN A LEARNING COMMUNITY?

AS A TRANSFER STUDENT, you'll make a smoother transition to your new environment. When you enroll as part of a group in two common courses that share interdisciplinary themes, you'll discover how the "big questions" in one course relate to another course and beyond. Plus, you'll gain new perspectives from others within your Learning Community. These LC courses will fulfill your major requirements and move you toward your degree completion.

HERE'S WHAT YOU CAN EXPECT

- Opportunities to excel
- Improved academic performance
- Relationships that establish networking contacts within your field of study

WHAT DO TRANSFER LC STUDENTS EXPERIENCE?

LEARNING COMMUNITY PARTNERSHIPS create comfortable, supportive, and engaging environments based on mutual respect and trust. You have the

opportunity to interact academically and socially with faculty in a variety of settings, including potential service-learning experiences.

REAL WORLD EXPERIENCES provide opportunities to apply course content to situations beyond the classroom.

STUDENT-CENTERED CLASSES support collaborative learning based on individual needs.

CRITICAL THINKING challenges you to explore conflicting perspectives and complex issues.

COLLABORATIVE ASSIGNMENTS expand upon existing problem-solving skills.

INTERDISCIPLINARY CONNECTIONS integrate common ideas, research, and theories.

Learning communities help you get a new degree of confidence.

BECOME A PART OF TEXAS WESLEYAN LEARNING COMMUNITIES

During transfer orientation and registration ask your major advisor if there is a Learning Community that is right for you.
